INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference PH-1809-PCT	I FUR FURITIES ACTION Framination Deport (Form PC 1/1PEA/410)		tionofTransmittalofInternational Preliminary n Report (Form PCT/IPEA/416)		
International application No. PCT/JP2003/010374	International filing date (da 15 August 2003 (15		Priority date (day/month/year)		
International Patent Classification (IPC) or r F02P 5/15, F02D 43/00, 41/02,					
Applicant	HITACHI, L	ΓD.			
and is transmitted to the applicant a	according to Article 36.		national Preliminary Examining Authority		
2. This REPORT consists of a total of4 sheets, including this cover sheet. This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT).					
These annexes consist of a t	otal of sheet	s.			
3. This report contains indications relating to the following items: I Basis of the report II Priority III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability IV Lack of unity of invention V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement VI Certain documents cited VII Certain defects in the international application Certain observations on the international application					
VIII Certain observant

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3). 3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form. furnished subsequently to this Authority in computer readable form. The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished. 4. The amendments have resulted in the cancellation of: the description, pages		page	, filed with the demand
the international application was riled, these studies in the selements were available or furnished to this Authority in the following language which is: These elements were available or furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/ or 55.3). 3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form. furnished subsequently to this Authority in computer readable form. The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished. 4. The amendments have resulted in the cancellation of: the description, pages the claims, Nos. the drawings, sheets/fig This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).** * Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rule 70.1)	1	page	s, filed with the letter of
the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/ or 55.3). 3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in computer readable form. The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished. The amendments have resulted in the cancellation of: the description, pages the claims, Nos. the drawings, sheets/fig This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).** *Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to the standard of this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rule 70.1 and 20.17).		he interna These eler	tional application was filed, unless otherwise indicated under this from which is:
the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/ or 55.3). 3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form. furnished subsequently to this Authority in computer readable form. The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished. The amendments have resulted in the cancellation of: the description, pages	-	the the	language of a translation furnished for the purposes of international search (under Rule 48 3(b)).
3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form. furnished subsequently to this Authority in computer readable form. The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished. The amendments have resulted in the cancellation of: the description, pages	1 }	the	language of publication of the international application (under Rule 40.5(5)).
contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form. furnished subsequently to this Authority in computer readable form. Claims 1, 4, 10, 14-18, 20, 21, 25-29, and 35

Paragraphs [0063] and [0064] in the claims of document 1 describe art for increasing temperature of a catalytic converter by setting ignition timing at top dead center or thereafter and igniting fuel in an expansion step.

Fig. 6 in the claims of document 5 and Fig. 2 in the claims of document 6, Fig. 1 of document 2 and Fig. 1 of document 8 describe art for installing a turbulent flow generating part in an exhaust system.

Claims 2, 3 and 11

The claims of document 2 describe art for activating a catalytic converter by performing emission warm-up stratification combustion in a compression step.

Claims 5, 6, 12, 30

The claims of document 3 describe art for adjusting combustion pressure, increasing penetration in the direction of an ignition plug more so than fuel spray in the direction of a piston and further causing a vertical swirl to be generated.

Claims 8 and 34

Paragraph [0132] of claims in document 4 describes art for activation of a catalytic converter by setting ignition timing after top dead center and controlling torque change by tumble generation.
